Steel Challenge Stages

There are only eight official stages. Each stage has five plates at distances of seven to thirty-five yards. Each string gets timed, and your cumulative times become your score. The competitor with the lowest overall cumulative score wins.

Steel Challenge competitions are very much a mental game of consistency and performance. It helps to have a plan when shooting any stage. Review the included stage diagrams so you understand where you will shoot first and where you will finish on the stop plate.

Example of an eight-stage competition where you shoot multiple strings per stage.
